

3 April 1956

MEMORANDUM FOR: Col. James J. Hausman, USAF  
NIS Committee Member

FROM: Vice Chairman, NIS Committee

SUBJECT: NIS Gazetteer Requirements

1. Attached is the record of supplemental NIS Gazetteer dissemination which I discussed with you following the last NIS Committee meeting.

2. This record covers only the twelve-month period ending 19 March 1956. The Air Force receives 235 copies of each NIS Gazetteer as it is published, and the figures shown in the USAF column represent the number of additional copies of NIS Gazetteers requested during this twelve-month period.

3. On 23 March 1956 the Liaison Division, OOR/CIA, advised that Air Force had sent in new requirements for NIS Gazetteers which reduced initial dissemination from 235 to 135 copies.

4. On the basis of the supplemental dissemination of NIS Gazetteers to the Air Force during the past year it would appear that an increase of 50 copies in the initial dissemination, rather than a reduction as requested, would be more appropriate.

5. It will be appreciated if you will look into this matter and inform this Office of your findings, and decision with respect to initial NIS Gazetteer requirements.
